

Become a Certified Google Apps for Education Trainer!

SOITA is proud to be hosting Ohio's first ever camp for Google Apps Certified Trainers! As one of only two certified training centers in North America, this is a unique opportunity to learn from SOITA's own Certified Trainers and the staff from Google what it takes to become a trainer. The camp will be an intensive four-day training where participants will cover the information necessary to pass the six required exams to receive the Google Apps Education Individual Qualification certificate. These six tests will be completed during the training as well as the short introductory video required for submitting your application to Google. Each attendee will also receive a Samsung Series 5 Chromebook so they can immerse themselves within Google! Being a Google Certified Trainer allows you additional access to Google resources and opportunities. **Enrollment is limited to 16 people, so don't wait to register!**

Participants can choose from two enrollment options.

The Limited Bundle includes:

- 30 hours of instruction by certified Google trainers
- a Samsung ChromeBook with Wi-Fi
- payment for the six required tests
- lunch each day of class
- filming & editing of the required introduction video

The All-Inclusive Bundle includes:

- all of the items in the Limited Bundle
- three nights in a nearby hotel
- free breakfast each day of class

This training camp will be held at SOITA's computer labs in Franklin, Ohio located one mile west of I-75 at exit #36. The dates of the training camp are October 17-20, 2011. The classes will run from 8:30am-5:00pm each day. Participants will need to create a short video of themselves teaching a Google lesson when they return to their school and submit it to Google as the last piece of the certification process. While participants will receive all of the necessary training and tests, SOITA can not guarantee each participant will be approved by Google. Contact SOITA at (800) 964-8211 with your questions.

Registration Form for Google Apps for Education Trainer Certification
